

Instructions for Printing JND booklet

The pages are arranged so the whole booklet prints out with “automatic duplex” on 8 pages double sided in perfect order for assembling. All one has to do is cut it in the middle.

This saves a lot on printing costs as one can print it from their own printer.

Printer instructions for the booklet pages:

1. Choose “booklet printing”
2. Choose “portrait orientation” rather than “landscape”
3. Choose automatic duplex (if printer does not have this capability then you will need to figure out how to feed the sheets by trial and error)

Printer instruction for the cover:

1. Choose “regular printing”
2. Choose “landscape orientation”
3. Turn off the “duplex” to print “one sided”
